

COCHENOUR ARENA

Location. **Cochenour, Ontario**
Industry. **Recreation**
Area. **29,700 sq.ft**

The Cochenour Arena is located in Cochenour near Red Lake Ontario and is a modern facility with standard size ice surface, heated seating area, five dressing rooms and large lobby with concession booth.

We did a large retrofit to the arena that included a quonset-type structure at the back of the facility which houses the actual ice rink, while the new lobby and concession booth area is a rigid frame structure. Light bounces between the white ice surface and bright, white-painted ceiling and quonset beams.

The project also included a small lean-to structure at the back of the ice rink to house the zamboni.
